

Lista Service Bay & Storage Solutions for Automotive Dealerships

Quality drives success.

Efficiency. Productivity. Profitability.

They drive the quality of your dealership.

Your Service and Parts Departments are major profit centers. That's why the service bay and parts storage solutions you invest in are critical for driving profitability. Look to Lista for customized solutions that optimize the efficiency and productivity of your parts and service operations. The clean, organized and professional appearance will also help attract and keep customers.

LISTA. We drive the quality of your service and parts workspace.

Lista storage systems and workbenches turn the most disorganized service bays and parts departments into productivity zones. We'll customize high-density storage and time-saving workspace solutions to bring consistent appearance, efficiency and space usage to every cubic inch of your available space.

Nobody knows the automotive market like Lista.

We've been manufacturing high-quality solutions since 1945, with a long history of involvement with automotive dealerships and motor sports. Our products are in parts departments, service bays, garages, shops, and racing transporters and pits all over the world. Our solutions for North America are manufactured in the USA, and we offer a limited lifetime warranty on everything we make!

ListaWorks™ Customized solutions that fit your needs. EXACTLY.

ListaWorks™ is our process for providing the highest-quality, custom-configurable solution that precisely fits your unique space and usage requirements. First, we listen to understand your needs. Next, we use our design expertise and custom solutions capability to optimize your dealership's unique footprint. Then we draw the solution so you can see exactly what you'll get. Finally, we build it with famous Lista quality and durability. That's making workspace work for you.

Lista in your Service Department:

Turbo-charge performance and efficiency.

Nothing revs up your automotive service bays like Lista storage cabinets, toolboxes, workbenches and mobile carts. Tough, industrial-grade construction and materials are engineered to take a beating and still look great, while giving technicians quick and easy access to tools, parts and supplies. Lista's clean, coordinated workspace enhances your image, promotes productivity and helps retain skilled technicians.

Your Lista is loaded with options — custom configured to meet your space and budget needs.

1. Workbench Integration

(page 6)

Delivers all you need to work on a vehicle's key components. A wide range of drawer and shelf units with stainless steel tops and backsplashes are a popular choice.

2. Technician Series Toolboxes

(pages 8-9)

Integrate narrow and wide drawers of varying heights to accommodate long tools, short tools, deep tools and various components. Drawers are sub-dividable for organized tool storage.

3. Lift Control Cabinet

(page 13)

Offers integrated, easy-access controls, and slides in and out for a neat appearance and easy servicing of the power unit. Supports all major lift manufacturers.

4. Choice of Bases

Choose from fork truck base with stainless steel face plate, our unique wet/clean base that allows for easy cleaning without mounting work bays to the wall, and many others.

5. Mobile Carts

(page 10)

A mobile tool cart with optional drawer storage gets the right tools and parts within arm's reach of a vehicle.

6. Mobile Cart Garage

(page 11)

Stores and secures a mobile cart when not being used to work on a vehicle.

7. Hose Reel Cabinet

(page 13)

Holds up to 4 reels (air, water, oil, fluids) in a cabinet design that doesn't interfere with workflow.

8. Custom Drawer Interiors

Mesh liners, plastic boxes or partitions and dividers allow for custom organization of your drawers for easy tool storage and access.

9. Integrated Power and Data Access

Flexible integrated power and data options make sure you have the most efficient power supply and data access right at the point of use.

10. Overhead Cabinets and Risers

(page 12)

Store and secure everything from tools, supplies and personal items to computer monitor. Riser allows cabinets to be freestanding, and accommodates cable/wire management, integrated pull-out keyboard and lighting.

11. Bulk Storage

(page 14)

Secure storage for larger items, on shelves or in deep drawers.

12. Customized Colors

(back cover)

Choose from 10 standard colors, or we can match your corporate standard color, or anything you have in mind.

13. Essential Tool Storage

(page 23)

We're experts at configuring storage for your exact essential tool storage needs.

14. Special Solutions

Lista can come up with a solution to specifically meet needs like lube stations, or foreman or diagnostic stations.

Lista in your Service Department:

Integrated Service Bays give your technicians the tools they need for maximum productivity.

Lista's integrated service bay solutions mean that every need your technicians have can be met with the perfect solution. And that solution is customized to your exact floor plan, workflow and wish list.

Have an unusual building with random bump-outs in the walls? No problem! Our design team will create a custom solution to exactly conform to the specifics of your dealership's service department infrastructure.

// Our technicians have lots of counter space for their tools, with storage underneath. The solution is visually great and functional, too. //

*John Conway
Service Manager, Daytona Harley-Davidson*

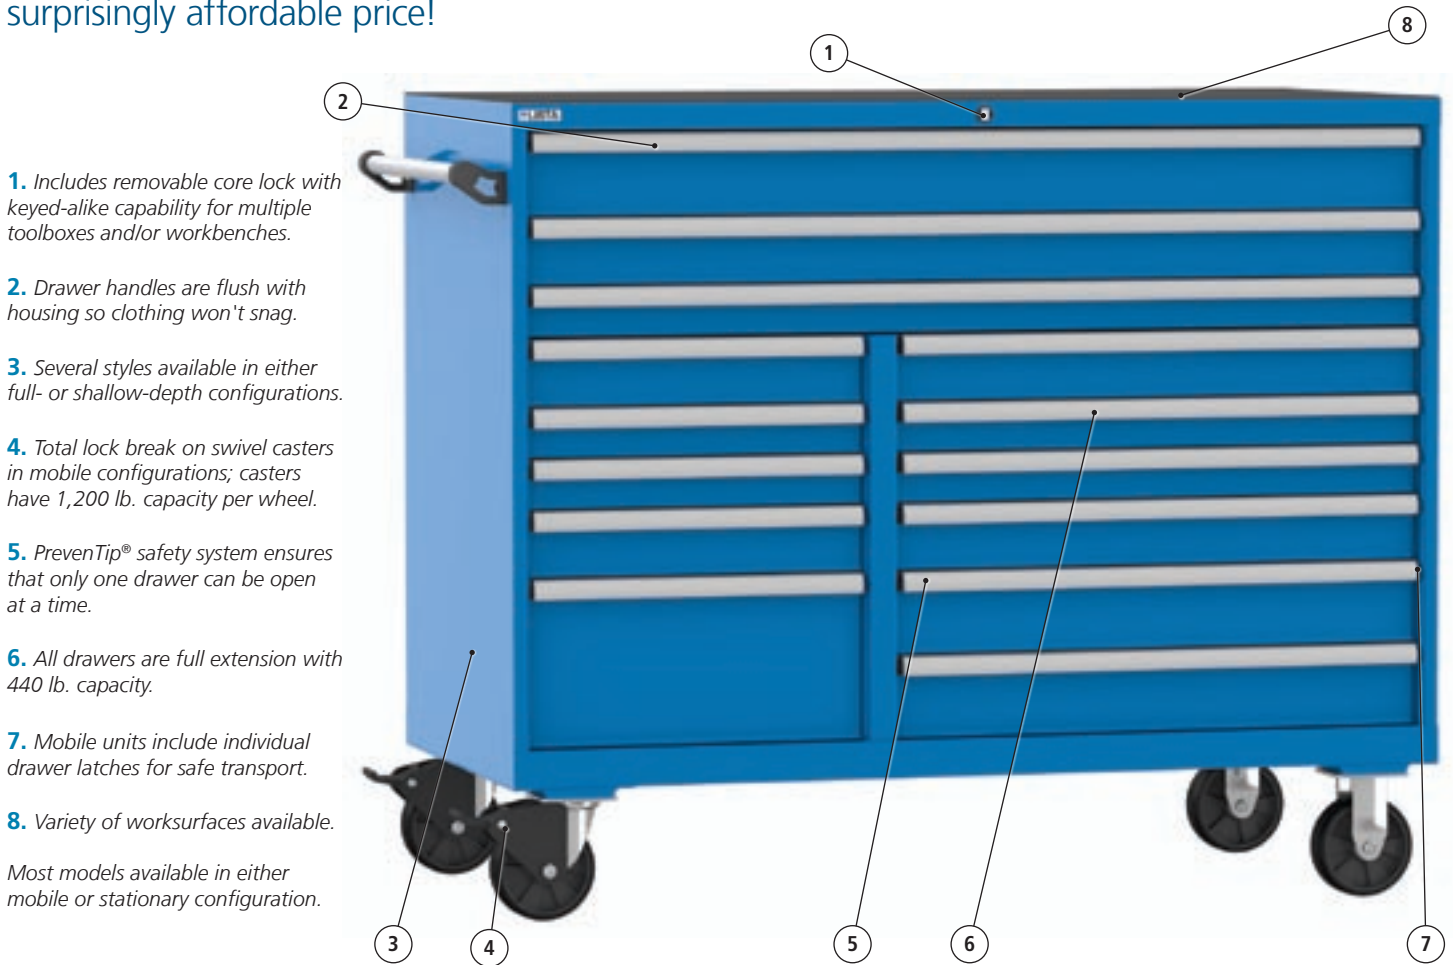

Technician Series Toolboxes:

Trust your tools to the world standard in tool storage.

Don't settle for ordinary tool storage when you can get your hands on a Lista Technician Series Toolbox. Quality, strength and precision are designed in and built on. And Lista lets you have it all – the most durable boxes on the market, with large storage capacity at a surprisingly affordable price!

1. Includes removable core lock with keyed-alike capability for multiple toolboxes and/or workbenches.

2. Drawer handles are flush with housing so clothing won't snag.

3. Several styles available in either full- or shallow-depth configurations.

4. Total lock break on swivel casters in mobile configurations; casters have 1,200 lb. capacity per wheel.

5. PrevenTip® safety system ensures that only one drawer can be open at a time.

6. All drawers are full extension with 440 lb. capacity.

7. Mobile units include individual drawer latches for safe transport.

8. Variety of worksurfaces available.

Most models available in either mobile or stationary configuration.

- Rugged design and all-welded construction, backed by lifetime warranty
- Wide range of footprints, heights and styles
- Stand-alone, mobile or integrated into work area
- Made in USA
- 440 lb. capacity full-extension drawers
- Drawers are sub-dividable
- Customized designs

- Drawer divider, base and work top options
- Choice of worktops – ribbed rubber mat (included), or optional stainless steel top, stainless steel cover and butcher block top
- 5 standard premium gloss powder coated colors, or match your corporate standard color

SINGLE BANK TOOLBOXES

Offers high capacity and great value. Patented PrevenTip® one-drawer-at-a-time interlock safety system prevents accidental tipping, and choice of top makes for a perfect worksurface.

DOUBLE BANK TOOLBOXES

Compare Lista's features, capacity and value to anything else on the market – nothing beats our double bank toolboxes. The most rugged and configurable toolboxes on the market.

TWO BAY TOOLBOXES

Lista two-bay toolboxes offer unlimited flexible configurations – design your own to fit your specific needs. It's a convenient workstation and storage unit at repair sites, with your choice of worksurfaces, including durable stainless steel and butcher block.

For many more configurations and choices, visit www.ListaBox.com

TRIPLE BANK TOOLBOXES

When you need maximum cubic capacity and total square inches, turn to Lista triple bank toolboxes, available in a large number of configurations, both mobile and stationary. As in all Lista cabinets, we offer flexible drawer interiors that can be individualized with an extensive array of subdividing options, including dividing and partitioning accessories, plastic boxes and foam cut-out liners.

Technician Series Carts & Cart Garages:

Optimal tool storage and transport for service technicians.

Lista's cart and cart garage allow secure storage for technician tools without having to empty the cart at night. The garage keeps a clean professional look to securely hide the cart when not in use.

TECHNICIAN CARTS

Heavy-duty technician carts are flexible and maneuverable, making transport of tools and parts fast and easy.

- Shelf carts: 2 or 3 shelf-only options
- Drawer carts: cart has 2 shelves with your choice of multiple optional drawer sizes
- Choose from 2 footprints
- Available in 2 heights: 31½" and 35½"
- 2" deep pan shelves come with ribbed rubber mat
- 2 fixed and 2 swivel heavy-duty casters

CART GARAGES & FRAMES

Lista garages provide a storage area for carts integrated right into our technician workbays. They allow carts to be stored securely when not in use, so they're ready to go when technicians need them. Available as fully-enclosed free-standing garage or security door with face frame only.

- Available in 33½" or 39¾" high configurations, and 22¼" wide x 28½" deep or 28¼" wide x 28½" deep footprints
- Left or right reversible hinged locking flush door

LARGE MOBILE ITEM LOCKERS

Store your large mobile equipment – oil drain carts, compressors, battery chargers and more – in our integrated lockers. Conceal and secure dirty or unsightly equipment to keep work areas clean and tidy.

- 28¼" wide x 52³/₁₆" high
- Left or right reversible hinged locking flush door
- Includes 1 fixed shelf
- Optional keyed-alike or master locks

Overhead Cabinets & Stationary Riser Shelves:

Keep items off the work surface and cabinets off the wall.

OVERHEAD STORAGE CABINETS

Need to keep personal items, power chargers, computer monitors and other bulky items organized and accessible, but off the worksurface? Lista overhead cabinets do the trick and are ideal with our workbenches and drawer storage cabinets.

Roomy dimensions: 15" deep; 16", 20" or 29" high; choice of 13 widths

Lockable door options: sliding, hinged, retractable, with or without Plexiglas® window, or no doors

Flexible mounting: mount cabinets on a wall or attach to a stationary riser shelf

Adjustable shelves: 1.5" increments offer greatest positioning flexibility in 29" high cabinets; optional center shelf in 20" high cabinets

Cable management: cabinets offer unique cable management system for hiding wires, etc. and accessing work area below

STATIONARY RISER SHELVES

Get a convenient overhead cabinet that doesn't need to be mounted to the wall. Our stationary riser shelves do the job and offer the additional advantages of lighting options, keyboard tray, stainless backsplash, easier installation and the ability to incorporate power strips. Choose from full stainless steel or painted rear panel.

TRASH CAN STORAGE CABINETS: Take clean to the next level.

Trash storage just got a lot neater with Lista's pull-out heavy-duty 440 lb. capacity drawer. Access the trash can fast, then make it disappear.

- NW width holds Slim Line trash can.
- MP width holds a typical square trash can.
- SC width holds a standard 32-gallon Brute industrial trash can or two 21-gallon half-round containers – separate trash from recycling in the same drawer.

REEL CABINETS: Real convenient access to oil, water, air or power.

Lista's cabinet design is perfect for safely storing up to four air and fluid hose reels, so they don't interfere with workflow. The cabinet integrates seamlessly into our service bay workbenches.

Hose reel cabinet housing: choose from a variety of sizes and configurations

Partial height sliding or flush hinged doors: allow easy access to the reels inside, and do not interfere with hoses and wires hanging above

LIFT CONTROL CABINETS: Easy access and perfect integration.

Our lift control cabinet provides technicians with easy access to automotive lift controls. Located inside a full-height drawer within an automotive workbench, with the lift's primary controls on the drawer face for quick access. Available in both single and double control models.

Custom solution: designed to fit almost any workbench configuration

Works with all lift brands: including Rotary, Challenger, and Nussbaum, as well as other major lift manufacturers

Saves time and enhances appearance: the power unit is within a built-in drawer, offering enhanced access and a clean, sleek appearance

Fast access to the power unit: facilitates servicing

Strength: lift drawers slide out and are mounted on our 440 lb. suspension system

Bulk Storage:

The configurations that let you store anything.

If it's big and bulky, Lista has the solution – our open or enclosed shelf cabinets and deep drawers. Shelf cabinets efficiently store large, irregularly-shaped items that don't lend themselves to smaller drawer storage. Stack them on same-sized drawer cabinets or pairs of drawer cabinets so smaller drawer contents and larger shelf items can be stored and locked together. The perfect way to consolidate large and small items in the same footprint.

Choice of storage type:

choose from cabinet with adjustable shelves, deep drawers or a combination of both

Various heights, widths and depths:

the perfect solution to meet your space needs

Optional work tops available:

provides a convenient worksurface for a variety of tasks

Lockable door options: sliding, hinged or open

Deep drawers: choose drawers as deep as 13" to store large tools and equipment with easy full-extension access

Worksurfaces:

A lot tougher than the job.

Lista lets you choose from an extensive selection of counter and workbench worksurfaces and backsplashes to handle the rigors of your service department. Our stainless steel, butcher block and galvanized steel worksurfaces are rugged, durable and easy to maintain.

Stainless steel worksurfaces: heavy-gauge stainless steel over a solid 1¾" thick wood core

Butcher block worksurfaces: tough and attractive 1¾" thick satin finish hardwood

Galvanized steel over wood worksurfaces: rust-resistant heavy-gauge galvanized steel over a solid wood core

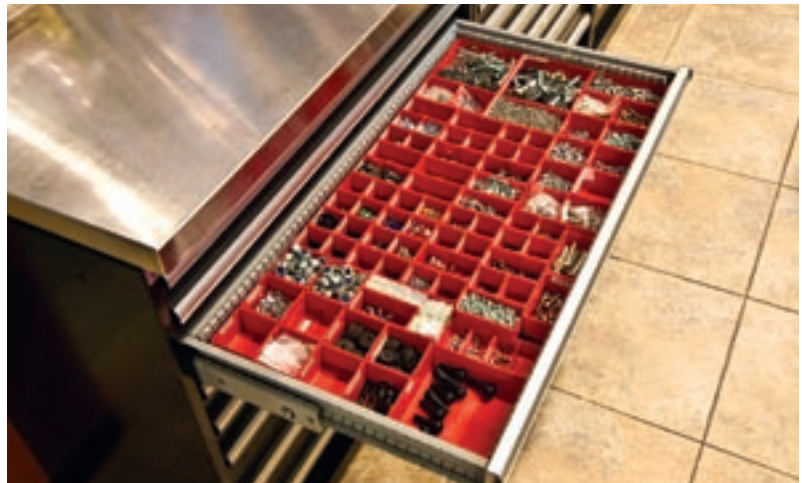

Lista in your Parts Department:

Accelerate productivity and organization.

Your Parts Department is a hub of activity. Busy personnel can do their jobs faster, easier and in fewer steps with Lista. Our custom-configured high-density modular drawer storage and Storage Wall® systems keep parts of all sizes and weights close at hand and easily accessible. Plus, you can maintain the same polished appearance as you have in your Service Department.

Invest in storage solutions that:

- Promote faster access and efficient service
- Maximize available space
- Improve inventory management
- Enhance employee productivity
- Create an aesthetically pleasing, professional image

Custom Drawer Interiors (above): Plastic boxes or partitions and dividers allow for custom configuration of your drawers. Store parts of a variety of sizes in right-sized compartments to maximize use of cubic storage space.

Stacked Drawer and Shelf Cabinets (left): (pages 20-21) Choose from a wide variety of drawer widths and heights for storage of small to medium parts, with stacked shelf cabinets above to hold bulkier items. Stack our cabinets into mezzanine configurations, thanks to their all-steel construction.

Storage Wall® System (left): (page 22)
The industry's most versatile parts and storage system with adjustable shelves, roll-out trays and drawers, all custom fit to your large and small fast-moving parts.

// It's mind-boggling how much we can store in our Lista cabinets. Plus, we've cut inventory time in half. //

*Robert Crete
 Parts & Operations Manager,
 Boston Volvo Village*

Parts Counter (above): (pages 18-19) *Start with counter space in a choice of worksurfaces, with ample room for monitors, literature and more. Then add custom-configured drawers, roll-out trays and shelves underneath for super-quick parts retrieval.*

Shelf Converter System (right): (page 22) *Take your conventional shelf storage to the next step. Combine Lista drawers with your existing shelving to improve organization and retrieval time of key parts for a fraction of the cost of replacing shelving.*

Parts Transaction Station:

Everything to make a sale is at your fingertips.

Keep high-volume items close at hand, and provide a smooth, spacious counter top for holding displays, keyboards and catalogs, and for conducting transactions. Issue counters maximize usable storage and workspace, while improving item retrieval and inventory control. They organize your parts department and increase your efficiency and customer responsiveness.

Store "top 100" high-volume items: get your hands on the fast movers quickly

Shelf cabinets: allow you to store bulky automotive parts adjacent to smaller items in drawers

Full-extension roll-out trays: allow easy access to the very back, while supporting up to 440 lbs. of storage

Durable counter tops: butcher block, stainless steel or plastic laminate counter tops stand up to daily pounding and look good doing it

Electrical / data raceway: integrated into counter top for hidden wire management

Electronics cabinet: store monitors, printers, and CPUs in integrated unit with roll-out trays and punch-outs for wire pass-through

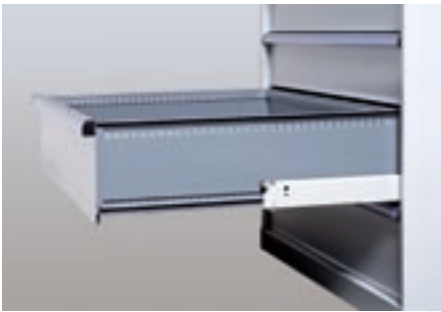

General Parts Storage:

Maximum storage for maximum profits.

An open and shut case for drawer storage.

Space is always at a premium in auto dealerships, so Lista has perfected high density drawers. Whether in cabinets, Storage Wall® or Shelf Converter® systems, drawers are much better at making full use of cubic space, particularly for small-to-medium size items of irregular shape and size. So leave the shelving for the big, bulky stuff. For everything else, use Lista drawer storage – and fill ‘em to the top.

Unique drawer construction: guide track supports, and front and rear panels welded to the drawer bottom provide full dimensional stability

Exclusive drawer suspension system: featuring quiet Polyoxymethylene (POM) bearings, combining strength, hardness, dimensional stability, fatigue resistance, low wear and low friction

Full drawer extension: drawers slide out 100% even with a full load, allowing complete use of the furthest corners and easy access to all contents

Full-height sidewalls: 6 different full sidewall heights provide maximum use of cubic storage volume, eliminating wasted space

Customizable drawer layouts: partitioning slots on all sides allow flexible subdivision for better item organization and faster retrieval

Convenient drawer dividers: angled top edges allow fast, accurate identification of compartment contents and accommodate Lista Script labels, as well as most bar code labels

Hinged drawer handle covers: unique handle cover has hinged plastic cover that easily opens and closes to allow labels to be added and changed, while protecting labels from handling, tears and dirt; drawers can be labeled with free, unique Lista Script software

Drawer Storage Cabinets: The highest density storage.

Lista offers a variety of modular drawer storage cabinets that allow maximum use of cubic space. Ideal for storage of parts, tools and items of virtually any size and type. They also provide maximum weight-bearing capacity, tailored drawer organization, and productivity-enhancing ergonomic item handling and access.

Heavy-duty weight capacity: cabinets are available with 440 lb. full-extension suspension

Low maintenance: no electronics or software components that need constant updating and repair – Lista cabinets require virtually no maintenance or upkeep

// **Modular, shallow-depth cabinets made the best use of the limited space we have. We maintained adequate walkways for technicians, which further increased productivity.** //

*Bob Rombs
General Manager, Tysinger Nissan*

Shelf Cabinets: Bulky items have a place to call home.

Shelf cabinets efficiently store bulky items that don't lend themselves to drawer storage. Stack them on same-sized drawer cabinets or pairs of drawer cabinets so smaller drawer contents and larger shelf items can be stored and locked together.

Adjustable shelves: 1" increments offer greatest flexibility

Various heights, widths and depths: shorter heights feature one or two adjustable shelves; taller heights feature three or more shelves

Lockable door options: sliding, hinged or none

Can be used stacked or free-standing: versatility for any application

Optional shelf dividers available: to better organize bulky items

Storage Wall® & Shelf Converter® Systems:

The efficient, versatile way to add storage and organization to your operation.

With the Lista Storage Wall® system, the biggest and smallest items can be stored near one another in a logical, easily accessible manner.

Infinite configuration: combine drawers, shelves and roll-out trays for the ideal storage and retrieval solution to your specific application; easily reconfigurable for future flexibility

Custom shelving and partitioning: custom design each section of the system to match the size of the items you're storing

Lista's unique Shelf Converter® system is a modular drawer insert that retrofits into standard industrial shelving, allowing much higher storage density. Store small-to-medium sized items in high-density drawers and larger items on shelves. You can improve organization and retrieval time of key parts for a fraction of the cost of replacing existing shelving.

High density: use the full cubic capacity of your storage space

Drawer subdividing system: drawer partitioning accessories allow you to create compartments that exactly fit what you're storing

Easy installation: just attach our unique frame system to your shelving uprights, insert drawer tracks and pop in the drawers. Unlike typical free-standing attachment brackets, our full frames ensure stability and smooth functioning for all drawers.

The perfect solution for retrofitting into existing industrial shelving: fits a number of standard shelving brands. Can be used with 36" x 24", 42" x 24" and 48" x 24" shelves.

Choice of sizes: Shelf Converter® units available in 4 heights, 3 widths; drawers are available in 5 heights

Essential Tool Storage & Management:

More ways to make workspace work.

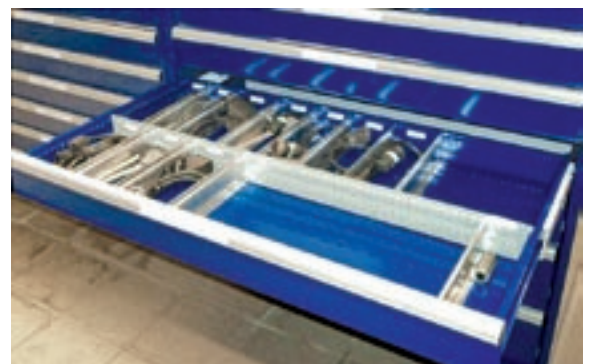

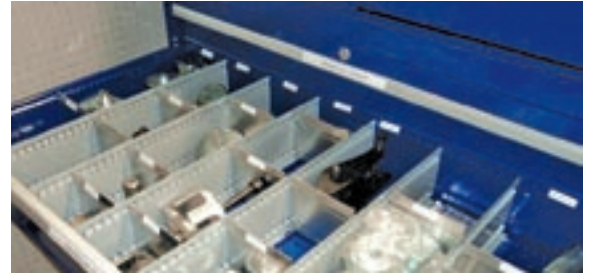

Flexibility and control.

Keeping your valuable set of special tools well organized and secure is a critical part of your business operations. At Lista, we will offer you a solution that will help you secure, organize and show location identification for these costly tools.

Drawer subdividing system: drawer partitioning accessories allow you to create compartments that exactly fit the tools you're storing, and are easily re-arranged to meet future changes and expansion in your essential tool inventory

Convenient drawer dividers: angled top edges allow fast, accurate identification of compartment contents and accommodate Lista Script labels, as well as most bar code labels

Hinged drawer handle covers: unique handle cover has hinged plastic cover that easily opens and closes to allow labels to be added and changed, while protecting labels from handling, tears and dirt
